ALLIANCE SSR BONECRUSHER

So we were trying to come up with the worst possible name for a piece of motorcycling safety equipment. Rib pulverizer, finger grinder, flesh shredder? No, too girly - no we needed a name that leaves no doubt about your riding style. Enter the Bonecrusher - sure it passes DOT/ECE safety standards - but

that won't stop us from giving it a ridiculous name. Back to the front the skull on the back says. You will do - what I say - when I say.

- All world standard, meets or exceeds the following: DOT FMVSS 218 (US), ECE 22-05 (Europe), SAI AS1698 (Australia) & SG (Japan) safety and testing standards
- Polycarbonate shell
- Wind tunnel tested and refined
- Imported
